Project "School Dream"

Children dream of growing up successful and beautiful, of realizing their dreams - for this everyone understands that knowledge and school are needed. The simplest, but such important tools are needed in learning - notebooks, pens.

We decided to put together a school backpack for the new school year for Ukrainian children who involuntarily witnessed the dramatic events of the war, but we understand that children are growing up and they need to learn and gain new knowledge. And what and how to study with, if many have left their homes or are in their city or village, but the most necessary and elementary tools for learning are practically absent or inaccessible there.

From June 1 to July 11, 2022, we received 37,363 applications. The “Dream to Live” Charity Foundation purchased 1,106 school sets for children in Ukraine

22.06.22 - CF “Dream to Live” received a trademark.

A trademark is not just a registered designation that distinguishes your product from others: it is a way to protect your business, which combines brand recognition and reputation.

Trademark registration is primarily carried out to get ahead of unscrupulous competitors. Legal protection plays a significant role today, because every day more and more "pseudo-volunteers" appear who want to get rich at the expense of someone else's brand.
