From dream to action!

Who we are

The “Dream to Live” Charitable Foundation was created to support children diagnosed with cerebral palsy and their families. To pay for vouchers to rehabilitation centers and purchase related medicines.

Message from the founder

Dear friends!

The true power that generates goodness is the ability to support the weak and give hope to those in despair.

We cannot wait for abstract heroes. A hero, a savior, a guardian angel, a Good Samaritan lives in the soul of each of us. However, where one person lacks the strength to fight, a group of caring and determined people can change everything. By combining our efforts, we can multiply the good millions of times. Everything is in our hands and hearts.

Thank you very much.

Mission of the Foundation

The mission of the foundation is to help children with cerebral palsy live a full and happy life and be in demand socially.

After all, cerebral palsy is not a sentence, but a long patient work!

According to the Charter, the main goal of the Foundation is to carry out charitable activities aimed at providing social and financial assistance to disabled children with cerebral palsy, accelerating the solution of their problems, restoring their health and returning to a full life.

Principles of work

FULL TRANSPARENCY OF ACTIVITIES

We do not collect money on the streets.

We send copies of all documents to potential and existing patrons and write an official letter of appeal with phone numbers of parents and hospitals.

We provide full reporting on the receipt of donations and the use of funds on our website in the “We Helped” and “Reports” sections.

WORK AT THE CALL OF THE HEART

Our team is a close-knit family made up of enthusiasts who love their work and strive to do good at the call of their hearts.

At home, our employees are caring and tender mothers. They come to the office of “I dream to live” strong and know that they will succeed.

The work of each employee is, first and foremost, the care and custody of children with disabilities,

Why cerebral palsy

In everyday life, children and their parents face many challenges: negative public attitudes, lack of social infrastructure (ramps and elevators for wheelchairs), and the need for large financial outlays exacerbate an already difficult situation.

We strive to help these children to open up and become full-fledged members of society in the future.

We not only help to pay for cerebral palsy rehabilitation, but also advise their parents on care, psychological assistance to parents and other issues.

Is cerebral palsy curable?

Over the past two decades, various studies have been conducted to answer the question:

- **What is the cause of cerebral palsy?**
- **What kind of damage to the brain area causes the pathology**
- **When the mutation process occurs**
- **Whether a person with cerebral palsy can live a normal life**

This should be of invaluable help in developing new surgical treatments with high efficiency, as well as finding drugs and medicines that will help patients cope with the disease. The most important task of modern medicine is to find methods, solutions and factors that can cure the pathology rather than manage the symptoms.

There is no cure for cerebral palsy, but constant and systematic

REHABILITATION gives RESULTS!

Не помогайте ящикам!

Ирина Поповская рассказывает мне, как недавно случайный таксист предложил ей подзаработать — нужно всего-навсего стоять в людном месте с ящиком для сбора пожертвований. Компания предлагает лжеволонтерам около 500 грн. в день, или 40% от выручки — и никто еще ни разу не привлек к ответственности ни одного мошенника.

Украина непрерывно порождает парадоксы. Например, население вроде бы интенсивно и с азартом стало жертвовать на благотворительность — но при этом огромное количество жителей совершенно не доверяют благотворительным фондам. Украинцы отдают нуждающимся на порядки больше денег, чем еще год назад — и при этом поступления для лечения детей снижаются радикально. И таких парадоксов в сфере благотворительности — тьма.

Ирина Поповская, руководитель фонда «Мечтаю жить», объясняет, что главная причина подобных странностей — специфическая леность наших сограждан, не желающих тратить моральные усилия на то, чтобы помогать конкретным людям.

12.10.20 – Iryna shared her experience of working for the benefit of those in need, as well as what inspires her in life and in her charitable work. The main topic was the importance of giving people as much good as possible, how to learn to hear the problems of others.
What conditions should exist in society so that children see the world through the eyes of a healthy, cheerful person, so that everyone can be happy and live a full life.

29.10.20 – Teachers of Khmelnytsky Specialized Secondary School No. 32 applied to the program with a request to help children with disabilities, orphans, and children from low-income families.
The “Dream to Live” Foundation responded to the school's request and purchased all the necessary teaching equipment for the institution.

Небезразличные спикеры выступили на мероприятии с целью привлечь внимание общественности к детям с особыми образовательными потребностями, а также подняли важные темы — о методах лечения, медицинской диагностики и всех нюансах получения образования для детей с ООП.

Миссия проекта — объединить тех, кто готов помочь, с теми, кому нужна помощь. Основатели фонда верят в то, что помогать детям, когда есть возможность и просто так, — это также важно, как и дышать. А еще важнее, делать это искренне и без пафосной огласки.

Редакция журнала TOUCH убеждена, что реализация проекта станет важным шагом для всего общества, а главное — подарит детям полноценное будущее, начиная с хорошего образования и заканчивая поддержкой их лечения.
