PROJECTSOF THE CHARITABLE FOUNDATION

2023

UNBREAKABLE CHILDREN OF UKRAINE WITH DISABILITIES

A full-scale war has changed the lives of millions of families, changed our thoughts, feelings, values, and taught us to appreciate what we have. It taught us to appreciate each other and our own lives.

That is why I Dream to Live Charitable Foundation launched the social project Unbreakable Children of Ukraine with Disabilities. The goal of the project is to tell the world how not only our soldiers, doctors, emergency services, utilities, volunteers, businesses, but also children with disabilities cope and live with the constant trials of war. The stories of children with disabilities are always about pain, overcoming, hard work and small victories.

These children, despite the bloody war, remain strong in spirit and believe in goodness!!!

WHAT CHILDREN AND PARENTS GET

The children will receive positive emotions, sweet gifts, a book and a 10% discount on rehabilitation, while parents will receive positive emotions from their children's smiles and support not only emotional.

RESULT

All the stories of parents of children with disabilities will be collected in a book, translated into English, and distributed both online and offline.

WHAT IS REQUIRED FROM THE PARTNER

Involvement in the project as a partner, information support, both Ukrainian and international, financial support for the project if possible.

CEREBRAL PALSY PROJECT

Despite all the difficulties and the bloody war in our country, the I Dream to Live Charitable Foundation has returned to its core business - helping children with cerebral palsy.

After all, the Foundation's mission is to help children diagnosed with cerebral palsy live a full and happy life and be in demand socially.

Cerebral palsy is not a sentence, but a long patient work! That is why you can't stop, each rehabilitation gives its own result, with systematic passage (3-4 times a year) on the way to a full life.

WHAT CHILDREN AND PARENTS GET

Parents and children will receive rehabilitation within our country

RESULT

Improving the physical and emotional state of children, as well as helping mothers of children with cerebral palsy who, as a result of the Russian war against Ukraine, have practically lost the ability to pay for their children's rehabilitation

WHAT IS REQUIRED FROM THE PARTNER

Involvement in the project as a partner, information support, both Ukrainian and international, financial support for the project if possible.

SOCIALIZATION FOR CHILDREN WITH CEREBRAL PALSY

In addition to its core activities, the foundation is actively developing in other areas, supporting projects that make children's lives and the world a better place and draw public attention to important issues. In everyday life, children and their parents face many challenges: negative public attitudes and the need for large financial expenditures exacerbate an already difficult situation.

We strive to help such children to open up and become full-fledged members of society in the future. We not only help to pay for the rehabilitation of cerebral palsy, but also contribute to their socialization by holding events where children and their mothers are distracted, as everything is for them:

- master classes;
- entertainment programs (animators, gifts) and communication.

WHAT CHILDREN AND PARENTS GET

Children will get positive emotions, gifts and communication with their peers, and parents will get emotional relief.

RESULT

Improving the physical and emotional condition of children, as well as emotional support for mothers of cerebral palsy children who always spend time only with their children and have no time and money for anything else.

WHAT IS REQUIRED FROM THE PARTNER

Involvement in the project as a partner, information support, both Ukrainian and international, financial support for the project, if possible, gifts or services for events.

CATALOG FOR PARENTS OF CHILDREN WITH DISABILITIES

Sometimes trouble comes unexpectedly. When parents find out about the diagnosis of their long-awaited child, they simply do not know where to run and who will help.

Therefore, we will combine all the information in accordance with the laws of Ukraine in one catalog.

WHAT CHILDREN AND PARENTS GET

Parents will receive a catalog, according to which they will be able to apply for assistance in time and receive all the necessary documents for disability status.

RESULT

Improving the emotional state and informational support for parents.

WHAT IS REQUIRED FROM THE PARTNER

Involvement in the project as a partner, information support, both Ukrainian and international, financial support for the project, involvement of specialized institutions and government agencies.

SCHOOL DREAM FOR CHILDREN WITH CEREBRAL PALSY

Whatever the diagnosis of a child, everyone needs education.

Last year, we implemented this project for absolutely everyone in need, but now we want to provide many more children with cerebral palsy with school kits on the eve of the new school year.

WHAT CHILDREN AND PARENTS GET

School backpack with all the necessary school supplies

RESULT

Improvement of the physical and emotional condition of children, as well as emotional support for mothers of children with cerebral palsy who always spend time only with their children and have no time and money for anything else.

WHAT IS REQUIRED FROM THE PARTNER

Involvement in the project as a partner, information support, both Ukrainian and international, financial support for the project, if possible, gifts or services for events.
